

An all-new category of cases, the MAXCases Extreme Shell-L delivers robust, full-coverage protection in a new lightweight and budget-friendly design. The rugged top protects the expensive-to-repair device screen with a clear, rigid panel made of compound polycarbonate, surrounded by an impact-absorbing TPU bumper and enhanced corners. The device's bottom is safeguarded against impact and scratches by another clear compound panel. Our textured MAXGrip wrap connects the panels, delivering added hinge protection and a wide grip-assist surface. Custom-designed for each device model, the Extreme Shell-L delivers a snug, perfect fit and supports all device functions and port access.

Extreme Shell-L

Robust protection, lightweight budget-minded design

Extreme Shell-L

Robust protection, lightweight budget-minded design
