Custom-fit for iPad 10/11

Extreme KeyCase-T w/USB-C and 3.5mm Plug for iPad 10/11

Rugged protection plus keyboard, trackpad & headset connectivity

The Extreme KeyCase-T with USB-C, 3.5mm plug and trackpad is an all-in-one protective case solution for iPad 10/11 that enables the use of wired headphones and delivers USB-C charging. Users can take control of their comfort with the infinitely adjustable (and virtually break-proof) patented FlexStand, which enables customized positioning, while choosing from typing, touchscreen or trackpad to best meet their needs. The rugged TPU bumper surrounds the iPad and keyboard to provide shock-absorbing protection against drops, scratches, spills, and wear & tear. The integrated design keeps keyboard and stylus always available, with nothing extra to keep track of or lose. The smart design helps reduce hassles, with tamper-proof keys and a water-resistant keyboard with integrated channels to quickly drain spilled liquids. The custom-fit design ensures full functionality and easy access to camera, ports, and all materials are smooth and easy to keep clean and sanitary. Meets CAASPP/ELPAC requirements for online test administration.
